FYI.

To: Mr. C. G. Bates
Date: July 31, 1989
From: Frank A. Lowman
Subject: JAPAN - TESTING OF CHANNEL VENTILATED CIGARETTES

41-38-952-590

Information regarding the Testing of Channel Ventilated Cigarettes that we propose to send to J.T.I. is attached.

No direct reference is made to Philip Morris. Since there is a quote from Mr. Dymond that B&W and BAT support the development of a special holder for Barclay, this document should not disrupt friendly relations between our two companies.

G.B.
Geoff, this is what we propose to send to J.T.I. Situation now under control.
Thanks
WB/1

This sounds correct to be the I was not previously aware of the timing - May 1993. Also, if we can't come up with a method for 9/9 mtg. we should discuss our tactics beforehand. I leave for vacation Aug. 29 so could we establish parts + strategy before
